

DISCLOSURE AGREEMENT

(Effective June 2019)

Since there are states and/or countries that have regulations as to the educational requirements and use of various occupational titles, we suggest that you check with your state to see if there are any applicable regulations. In the United States, for example, some states have restrictions for using the title "Nutritionist" or "Nutrition Counselor", while other states do not. In any case, the use of the "Registered Dietitian" or "Dietitian" titles is restricted to individuals who met the credentialing requirements of the Academy of Nutrition and Dietetics.

Please note the programs at Huntington University of Health Sciences do not lead to the Registered Dietitian (RD) credential.

Please acknowledge that you understand under this Disclosure Agreement, Huntington University of Health Sciences does not offer programs that would suggest students qualify for a Registered Dietitians Credential upon completion of the student's program.

State by State Summary Disclosures:

Please review the following information. Please contact your state board directly for the most current information. This information is not designed to replace legal advice.

Alabama

Alabama offers licensure to professionals providing nutrition services within the state. One must be licensed to practice as a nutritionist in Alabama. A HUHS nutrition degree does not allow you to obtain licensure as a nutritionist in Alabama. The law, however, specifies very limited exceptions where one could engage in nutrition-related services without a license. Thus, to assure that HUHS's nutrition degree will help you achieve your professional goals, please contact Alabama's dietetics and nutrition board to determine any practice restrictions.

Alabama Board of Examiners for Dietetic/Nutrition Practice

Alaska

An individual may not, unless licensed as a dietitian or nutritionist by the Department of Commerce, Community, and Economic Development, use the title "dietitian," "licensed dietitian," "nutritionist," "licensed nutritionist," or an occupational title using the word "dietitian" or "nutritionist." Alaska does require licensure to provide nutrition services within the state. The state does offer licensure to nutritionists who meet their licensure standards. A HUHS nutrition degree does not allow you to obtain licensure as a nutritionist in Alaska. Thus, to assure that HUHS's nutrition degree will help you achieve your professional goals, please contact Alaska's Division of Occupational Licensing with any specific professional titling restrictions.

California

California does not require licensure to provide non-medical, nutritional services within the state. A nutritionist working in California may provide a wide variety of nutrition-related services without licensure. One must be licensed by the state, however, to use the titles "Registered Dietitian," "Dietitian," or "Dietetic Technician," and HUHS's nutrition degree does not allow you to obtain licensure as a dietitian in California. If you have questions about licensure in California, please contact the state's dietetic licensing board.

Please note: No direct contact information is listed as the Board's duties are outsourced to <https://www.eatright.org/> of the Academy of Nutrition and Dietetics.

Colorado

Colorado has no licensure law or other restrictions relating to working as a nutritionist within the state. HUHS's nutrition degree will provide you with the knowledge required to get you started on a career in nutrition.

Connecticut

Connecticut does not require certification to provide nutrition counseling or advice within the state. A nutritionist working in Connecticut may engage in a wide variety of nutrition-related services without certification. One must be certified by the state, however, to use the titles "Certified Dietitian-Nutritionist," "Connecticut Certified Dietitian," and "Connecticut Certified Nutritionist," and HUHS's nutrition degree does not allow you to obtain certification in Connecticut. If you have questions about certification in Connecticut, please contact the state's dietetic certification board.

Rhode Island

Rhode Island offers licensure to professionals providing nutrition services within the state. One must be licensed to practice as a nutritionist in Rhode Island. A HUHS nutrition degree does not allow you to obtain licensure as a nutritionist in Rhode Island. The law, however, specifies exceptions that may allow one to engage in nutrition-related services without a license. Thus, to assure that HUHS’s nutrition degree will help you achieve your professional goals, please contact Rhode Island’s dietetics and nutrition board to determine any practice restrictions.

Virgin Islands

The US Virgin Islands have no licensure law or other restrictions relating to working as a nutritionist within the territory. HCHS’s nutrition degree will provide you with the knowledge required to get you started on a career in nutrition.

<https://www.vi.gov/contact.html>

Virginia

Virginia does not offer licensure to those providing nutrition counseling or advice within the state. A practitioner working in Virginia may engage in a wide variety of nutrition-related services without licensure. One must meet the states legal standard, however, to use a title that includes “nutritionist” or “dietitian,” and HUHS’s nutrition degree may not meet Virginia’s legal requirements. If you have questions about practicing in Virginia, please contact the state’s department of health.

West Virginia

West Virginia does not offer licensure as a nutritionist, but instead offers licensure only as a dietitian to professionals providing nutrition services within the state. One must be licensed to practice as a dietitian in West Virginia. A HUHS nutrition degree does not allow you to obtain licensure as a dietitian in West Virginia. The law, however, states that

there is no licensure requirement for providing general nutrition information, and thus, one may be able to provide nutrition-related services without a license. To assure that HUHS's nutrition degree will help you achieve your professional goals, please contact West Virginia's authorized dietetics board to determine relevant practice restrictions.
